

WKS™ INNOVATIVE OUTERWEAR

Warp jacket collection comes with the same top features that make all WKS™ products unique.

These upper casual garments for contemporary and functional outerwear, combine ultra comfort and performance.

Warp seamless technique allows to create body-mapping designs so to enhance these jackets with functional structures such as ventilation areas to ease transpiration and compression zones for higher comfort.

SUSTAINABLE TECHNOLOGY

Aligned with Cifra commitment towards eco sustainable production, warp jackets knitting and finishing process guarantees significant fabric waste reduction.
